COMMISSION

Commonwealth Of Virginia State Board Of Elections  
**Report on Expenditure of Title I Funds – Calendar Year 2006**

The following describes activities funded with HAVA Title I funds from January 1, 2006 to December 31, 2006.

***Complying with Public Law 107-252 title III requirements  
(1,847,339.19)***

The Virginia State Board of Elections (VSBE) began initial work to develop a HAVA compliant statewide voter registration roster system in August 2003. This was eight months prior to receiving the first installment of the Title II funds from the EAC. Therefore, the initial project expenses were funded with Title I funding. During 2006, and after receiving Title II funding, VSBE amended its State plan and, also transferred \$2,092,342 of initial development costs to Title II funds. The transferred cost represents costs associated with personnel, office space, telecommunications and computer systems design and development costs incurred in developing the statewide voter registration system

The agency also established and incurred cost of 2 full-time positions to carryout the activities mandated by HAVA relating to Voting systems standards. These employees conduct activities to ensure that all voting systems used in Virginia meets the standards and requirements mandated by HAVA. They also perform voting equipment purchases contract administration and fully administer the voting equipment purchasing and certification processes for all of Virginia county and cities.

The agency established telecommunications and phone systems to accommodate the HAVA requirements of provisional voting. Specifically, new telecommunications lines were established to allow voters to communicate to election officials regarding the provisional voting process and the status of their provisional vote (if applicable). During the November 2006 federal elections, the agency also incurred printing cost associated with the posting of provisional voting posters and information at the polls.

VSBE also incurred costs of \$165,000 during the period relating to Election Day voting information and instructions. Local television ads were run as public service announcements to provide voters with information pertaining to the November 2006 federal elections.

**Improving the administration of elections for federal office**

VSBE incurred personnel and office supply costs associated with administrative oversight and coordination of HAVA related activities. These employees ensure that procedures and activities are being conducted to fully implement the HAVA requirements and standards statewide. This

RECEIVED  
U.S. ELECTION ASSISTANCE  
COMMISSION  
2007 MAR 14 PM 3:06

activity also includes the cost of 2006 audits (\$15,547) as required by federal grant administrative procedures.

### **Educating Voters**

The agency uses a full-time employment position to carryout the activities associated with the education of voters on voting rights, voting procedures and voting technologies. We have also modified and enhanced a web-based election results reporting system to allow citizens to obtain results of federal elections in real-time as they are reported from the precincts. The agency employed a web-based content management system to enhance its ability to deliver dynamic and timely election, voting and registration information to voters.

### **Training**

The training of poll workers and election volunteers are performed at the local county/city level by local election officials. However, VSBE dedicates a staff position tasked with ensuring the standards of voter education are met, also, assists with the coordinating and assisting counties and cities in meeting the standards of training of election officials and poll workers.
